

# Role

## **Senior/Principal Acoustic Consultant**

**35-40k**

A growing multidisciplinary consultancy is looking to recruit a Senior/Principal Acoustic Consultant to join their team of multidisciplinary consultants in Sheffield. This successful consultancy is looking to recruit an Acoustic Consultant with 4 years + experience.

Candidates must have a good academic background and should be technically proficient and highly motivated to participate within their portfolio of noise and vibration projects. Candidates should ideally be working towards full membership of the Institute of Acoustics.

Candidates are expected to be numerically proficient, strong written skills, highly motivated and enthusiastic to learn and develop their skills under the guidance of senior team members.

This is a fantastic opportunity to join a leading multi-disciplinary consultancy that has an unrivalled reputation for delivering quality. They can offer the successful candidate a career structure as well as further training and personal development. The organisation can also offer a generous salary and benefits package.
