

# Role

## **Wind Turbine Recruitment**

Our client is a leader in wind turbine erection and maintenance. With experience of a wide range of megawatt class wind turbines they deliver their services worldwide for the industry's market leading developers, operators, manufacturers, and consultants. Due to continuing growth in demand, they are looking for motivated and talented individuals to join their wind turbine installation servicing and maintenance teams. If you have experience of wind turbine servicing or installation, good mechanical and electrical engineering skills, or have experience in aligned sectors such as the oil and gas industry we would like to hear from you.

**There are vacancies in the following roles:**

### **Offshore Wind Turbine Service Engineer/Technician**

The ideal candidate will have experience of offshore wind turbine servicing and maintenance. We are seeking a hard working and motivated individual with good knowledge of wind turbine gearboxes, yaw drives, generators etc, with work at height qualifications and knowledge of the Wind Turbine Safety Rules. Offshore survival training is desirable however survival and /or wind turbine access and rescue training will be provided for the right candidate.

### **Onshore Wind Turbine Engineer /Technician**

The ideal candidate will have experience of onshore wind turbine servicing and maintenance. We are seeking a hard working and motivated individual with good knowledge of wind turbine gearboxes, yaw drives, generators etc, with work at height qualifications and knowledge of the Wind Turbine Safety Rules. Wind turbine access and rescue training would be an advantage however full training will be provided for the right candidate.

### **Trainee & Apprentice Wind Turbine Engineer/Technician**

If you have finished a modern apprenticeship in mechanical or electrical engineering and would like to take the next step, we can help. Our client runs apprentice training schemes giving you everything you need to become a fully fledged wind turbine technician.
