

Geo-Environmental/Geotechnical Consultant
£Competitive

Various Locations

We are looking for a multi-disciplinary, Geo-Environmental/Geotechnical Consultant to be based in various locations within the UK. Within this position you will be responsible for desk studies, ground investigations (factual and interpretive), groundwater and gas risk assessments. Working with senior and principal engineers providing clients with geo-environmental assistance as required and you will assist with negotiations with regulatory authorities (NHBC, EA, LA) on an ad hoc basis.

In order to be considered for this role you will have a good working knowledge of appropriate British Standards, Eurocodes, Industry Guidance and NHBC Standards, have a BEng, BSc or equivalent technical qualification in a relevant subject and be working towards Chartered Engineer/Geologist status, with at least 3 years of relevant experience including ground investigation, interpretation and reporting.
