

Principal Ecologist

£-Competitive + benefits

Located either London/West Midlands

We are working with a leading multi-disciplinary environmental consultancy who are rapidly expanding and have the requirement for an experienced Principal Ecologist to join their team, either to be based in London or the West Midlands.

Working as a Principal within a team/business unit the successful candidate will be responsible for resource planning and management, providing technical and financial input to proposals and managing projects alongside managing, coaching and mentoring staff where line management responsibility has been allocated.

To be considered for this role you will hold a relevant first degree, be a full member of CIEEM and have at least two specialist licences (such as newts or bats) and have a minimum of 6 years post-graduate experience within similar roles where you will have demonstrated strong report writing and reviewing skills.

For all details and requirements please contact Rebecca on the methods below, if emailing, include your current CV and the **Job ref: RB1886**.
