

Consultant (Legionella/Water)

North London

£-Attractive

A Leading Integrated Services Consultancy are looking for an experienced Consultant to join their team.

Reporting to the Area Manager the successful candidate will undertake technical surveys and inspections at client sites and provide written technical reports on behalf of project managers within the Health & Safety Services division, as well as carrying out a combination of; risk assessments and audits of building water systems for the control of legionellosis including; auditing site records, produce water hygiene logbooks for domestic water systems and undertake accident investigations to identify root causes, audits of general H&S compliance and topic specific audits.

You will also liaise with project managers and account managers in relation to work under their control and work closely with the centralised planning team to ensure work is being effectively scheduled.

In order to be considered you must have proven experience working with water/legionella risk assessments and the environmental industry and have relevant industry qualifications e.g. IAWQ - city & guilds qualifications and certificates in BOHS P901 and P902 are preferable.

For full job spec please contact Becky on 0845 258 7583 or by emailing your CV to Rebecca@candovergreen.com with **job ref: RB2006**
