

**North West**

**Mobile Gas Engineer**

**£Competitive + benefits**

---

A leading energy and services company are looking for an experienced Gas Engineer to join their team to produce high quality reports of findings along with estimates for the production of estimates as well as carrying out planned preventative and reactive maintenance within a number of commercial plant rooms and office retail units within the region.

It is a role that will require the successful candidate to be capable of working both within a team or of their own initiative and be prepared to be part of the call out rota.

In order to be considered you must have current commercial gas qualifications – Installation, service, repair, testing including: COCN1, CPN1, CORT1, CIGA1, ICAE1, CDGA1 & TPCP1A, have good understanding and experience of mechanical equipment and servicing, have completed an approved and formal apprenticeship served in relevant skill area, preferably have gas catering/Oil/Oil/ LGP qualifications and have a full driving license as that is essential for this mobile role.
