

**Project Manager**

**Midlands/North West**

**£Attractive**

We are working with a world leading waste management company who require an experienced project manager who whilst reporting directly to the general manager will ensure new and existing site developments, improvements and refurbishment projects are fully scoped, planned, resourced and that the costs are fully budgeted against a clear business case and that opportunities and risks are clearly identified and actively managed to ensure that the projects are delivered compliantly, on time and within budget.

There will also be a number of other responsibilities expected to be taken on and the successful candidate will need to be willing to travel across the UK and at times spend nights away from home and so a full driver's licence is essential.

In order to be considered for this position you must have strong experience in SHE Management, including CDM and lift planning, have IOSH qualifications as a minimum, good experience with process re-engineering and experience in installing large capital equipment plants as well being familiar with ISO standards and waste management practices and controls.
