

Assistant Fleet Engineering Manager

North West

£Attractive

A global recycling leader is looking for an experienced Assistant Fleet Engineering Manager to support the Fleet Engineering Manager in a number of responsibilities, including; creating and maintaining a network of service and repair centres that can provide cost effective and compliant maintenance to the company's fleet of LGVs, trailers and vehicle equipment, review samples of vehicle and trailer service reports on R2D, DAF Check and others, analyse maintenance spend and recommend areas for improvement and produce transport compliance reports, although this is not an exhaustive list.

The successful candidate will have a minimum of 3 years in fleet maintenance role in a multi-site LGV environment, understanding of O Licence requirements, hold or be working towards CPC qualification, and have NVQ3 (or equivalent) in a relevant trade discipline or 2 years workshop experience in vehicle repairs and NVQ 2 in management or 2 years in a management position.

For the full details of this role please email your CV to Rebecca@candovergreen.com quoting **job ref: RB2057**
