

**Technical Energy Manager**

**Home Based/ Yorkshire**

**£Competitive + Car/Allowance, benefits & bonus**

---

We are working with a leading energy and services company who require an experienced technical manager to join their team and provide technical support for Energy and FM sales and existing contracts as well as internal and external project development opportunities, bring in revenue that contributes to the P & L of the team and the business, identify utility savings opportunities and progress them through to completion and a number of other duties and tasks.

This role will require extensive travel around the country and meetings attendance within Yorkshire, so the successful candidate must be flexible and prepared for that and have a full, clean UK driving licence as well as a degree or equivalent in Engineering or Science based subject and in-depth knowledge of industrial energy systems (steam, hot water, compressed air, refrigeration) and environmental standards/legislation (ISO50001).
