

Electrical Supervisor & QS

North East

£Attractive

We are working with a leading multi-disciplinary energy and services company who require a senior and experienced qualified engineer to join their team and take on responsibility for ensuring that Electrical compliance, training, contracts, quality, health & safety and operational commitments are met and exceeded. Provide advice and direction to the engineering team, monitor and increase their productivity and develop the engineers to becoming the best.

This is a very varied role and has a number of duties some of which will include; ensuring contracts are staffed by fully competence properly trained teams, with all post holders being appropriately skilled and experienced to undertake their roles effectively, hold regular meetings with the engineering team under the supervisor's control, and carry out building services maintenance duties at specified sites including heating, ventilation, air conditioning, electrical and emergency lighting.

The successful candidate will be a time served fully qualified engineer, with building services/electrical background, have demonstrable detailed knowledge of and experience with electrical installations within commercial buildings and building services in general and relevant qualifications; HNC or equivalent, City & Guilds 2382, City & Guilds 2330, IEE 17th Edition Wiring regulations and Inspection and Testing of Electrical Installations.
