

Senior Operations Advisor

Wales

£Attractive

We are working with a leading waste management company who are expanding their team and looking for a Senior Operations Advisor who will report to the Team Manager and take on responsibility for overseeing and delivering a programme of projects to advise and support local authorities to achieve strategic and service objectives improving recycling and reducing waste, as well as taking on a number of core accountabilities such as; assisting contractors in the delivery of projects/support, defining and managing input required from contractors, ensuring advice provided is appropriate, up to date and delivered within agreed timescales and budgets, and using our clients project management tools and applying good practices in the execution and management of these projects.

This role will require the successful candidate to travel at times, so flexibility and a preparedness for such travel is essential for this role as well as relevant WAMITAB COTC level 4 qualifications, health and safety qualification at level 2 or above, CPC certificate and full driving licence.

The position holder must also have significant operational management/supervisor experience in planning/delivering waste collections and depot management, and experience of implementing significant service changes and mobilising new contracts or services and experience with working with the public sector.
