

Operations Advisor (Service Change)

Wales

£Attractive

Reporting directly to the Team Manager and working with team members, the successful candidate will plan, manage and complete a portfolio of projects that provide advice and support to local authorities helping them in improving the recycling services they provide and reduce waste, particularly providing specialist support and guidance on operational matters and working with frontline staff during implementation of new services, service changes and operational efficiencies.

You will also be expected to provide progress reports for projects as required by your manager to inform reporting on the programme and at times travel around the UK including some overnight time away, and so a driving licence is essential.

To be considered you will hold CPC, IOSH Managing Safely and WAMITAB Level 3 minimum qualifications and certificates as well as have significant operation experience of; planning and delivering waste collection, recycling services, depot management, implementing significant changes in services and in mobilising new contracts and supervision of teams.

For full details email Rebecca@candovergreen.com quoting **job ref: RB2097** and with your current CV attached.
