

**Principal Consultant**

**Scotland**

**£Attractive**

---

We are working with a leading international, multidisciplinary services company who are looking for an experienced Principal Consultant to join their team based in Scotland and take on responsibility for the provision of environmental consultancy for their clients in the offshore oil & gas industry and marine sectors.

In order to be considered the successful candidate must have experience of the oil & gas sector and previous consultancy experience, a strong aptitude for gathering, assimilating and analysing information about physical, chemical, biological and social environments including and ability to gather and assimilate information outside of your core discipline e.g. engineering for oil and gas, and have a well developed background knowledge in marine biology, ecology, EIA techniques and understanding of environmental regulatory requirements (specifically UKCS).
