

Depot Manager

North West

£Attractive

We are working with a leading recycling company who have the opportunity for an experienced Manager to join their expanding team and take on responsibility for the operational activities of one of their busy process functions whilst also ensuring the depot demonstrates the highest possible standards of Health & Safety, and compliance to industry legislation, drives efficiencies and performance of the processes through effective communication and decision making, and supporting, inspiring and leading the team of dedicated supervisors, shift operators and maintenance staff as well as a number of other tasks.

The successful candidate will have previous leadership experience in an appropriate industry relating to heavy industry; processing, recycling for instance, have knowledge of maintenance and / or LEAN principles, qualifications in waste management e.g. WAMITAB and ideally knowledge of mobile and static plant capabilities.
