

## RDF Technical Support

North

£Attractive

Our client, a leading waste services company, are looking for an experienced RDF Technical Support person, to join their team and provide advice and support in relation to technical activities for RDF operations, whilst being responsible for technical, marketing and commercial advice. The successful candidate will report directly to the Technical Manager and take on a number of duties some of which will include; meeting clients and making sure their needs are met at all times, preparing and reviewing technical documentation (reports) and assisting with commercial documentation (bids, quotes, proposals) and provide support to the Technical Manager and Technical Consultant in determining sampling requirements on-site and developing method statements, as well as other tasks as required.

In order to be considered for this role you must have a Degree qualification in Chemical Engineering, Science, Environmental or similar. You must be analytical with strong IT skills and expert knowledge of MS Excel. You will have experience of report writing, sampling methods, risk assessments within the RDF/Waste/Biomass sector.
