

Production Shift Manager

North

£30k+benefits

(Full-time role, starts Mon-Fri days, may change to 4on/4off shift)

Our client, a Plastic Recycling company have the requirement for an experienced Production Shift Manager to oversee site adherence to key site processes relating to health and safety, security, employee relations and legislation. You will be responsible for; Daily management of the operation in accordance with Site Permit and Planning Permission conditions. This includes but not limited too; providing an on-site presence, daily liaison and management of the site foreman and plant operators, Compliance with Health & Safety at Work Act, other relevant legislation and Company procedures, daily management of production waste control. Maintaining a planned preventative maintenance (PPM) schedule including a system of checks for plant on site, and maintaining, updating the training matrix for plant operators. You will also be responsible for maximizing production output across all departments and manage production in line with quality standards and performance target. Provide training and development to team members to ensure they perform efficiently and be responsible for motivating the teams, working closely with the team leaders.

In order to be considered for this role you must have relevant experience and related qualifications. This is an excellent opportunity to join a new, rapidly expanding business.
