

**South East**                      **Hazardous Waste Manager**  
**£Competitive + benefits**

---

Our client, a leading Hazardous & Clinical Waste business has the requirement for an experienced Hazardous Waste Manager to take on responsibility for obtaining the Haz Waste and Clinical Waste supply contracts across the UK, whilst engaging with waste producers, identifying and securing opportunities to export and supply waste. There will also be a number of other duties including, but not limited to; monitoring and reporting competitor activity supply patterns and spotting commercial opportunities and reacting quickly and with the company's best interests in mind.

To be considered you will have a track record of success within related industries, possess a strong work ethic and be a commercial and entrepreneurial individual who has haz/clinical waste experience and knowledge.
