

Alternative Fuels Manager

National

£Attractive

We are working with a leading waste management company, who have the exciting opportunity for a new addition to join their alternative fuels team and whilst reporting to the Divisional Manager (Resources and Fuels), take on responsibility for delivering core business development activities and taking a true partnership approach to their work, bridging individual and departmental needs with that of the entire company, as well as a number of other tasks including, but not limited to; serving as a key lead on all aspects of project and client financials within a portfolio – ensuring proper processes, tracking methods and escalations are being adhered to and cultivating and nurturing strong relationships with key clients, new customers, industry executives and internal teams.

To be considered you will have a full UK driving license, a minimum of 5 years' experience within the alternative fuels or waste industries, previous experience of SME culture, and it is critical that you have proven customer facing experience and understand that extensive travel and staying away will be part of this role.
