

Regional Finance Business Partner

South East

£Excellent

I am working with a world leader within the recycling sector who have a role available for an experienced Finance professional who will act as a key Business Partner, collating and analysing information to support and challenge operational, commercial and logistics business decisions. You will provide systems training for ops, logistics & commercial teams. Linking with business analysts to implement actions via the regional teams and maximise performance. Some of your responsibilities will be but not limited to;- Assist in the training and ongoing support of all regional staff, including managers, depot admin and commercial admin and logistics staff; Daily operations reports: checking margin transactions, confirmations, any other margin transactions, this includes dealing with depot, commercial and logistics managers and checking and querying daily ops reports across divisions; Stock & cash reconciliation; Month end journals; Month end reporting - producing management account reports at a depot, area and regional level for operations, commercial and logistics departments; Budgets and forecasting - including asset replacement programme; Proactive approach to continuous improvement within all aspects of the role in conjunction with the Business Improvement Team. In order to be considered for this role you will have/be; CIMA qualified; Able to form positive relationships with Executive, Senior and Depot Management; Ability to maintain a high level of accuracy in preparing and entering financial information; Excellent presentation skills; Strong data analysis skills; Attention to detail and high level of accuracy; Strong experience in data analysis and manipulation; Flexible and resilient, and able to adjust to the demands of the business; Hands-on attitude, if necessary, with strong, competent execution of tasks; Straight-talking and a predisposition against organisational politics; Team player with strong local focus, but an appreciation of the wider national and global business needs.
