

## Maintenance Technician

London

£-attractive

I am working with a waste resource business who have a crucial role available within their maintenance team based in London. Your role will be to ensure efficient and effective working of machinery onsite. By repairing and maintaining machinery & facilities, not only are you providing an essential service for customers, you're also making sure the Operational teams have a good and safe environment to work in. With repairs and regular routine maintenance to carry out, the working days are busy but varied and critical to ensure the machines can operate to capacity so the company can continue to manage waste disposal for the UK's healthcare industry. Some of your role will include but not be limited to; Diagnosis of faults or equipment failure; Completion of scheduled maintenance tasks; Regular plant equipment & boiler water testing; General Plant maintenance; Coordination of external contractors; Maintaining a stock of critical spares; Providing out of hours support. The type of equipment will be; Bin tippers; Shredders; Steam boiler & associated equipment; Autoclaves; Bin Washer; Waste compactors; Robotic container wash lines. In order to be considered for this position you will have; 2 years' experience in a similar maintenance role; Qualification in relevant engineering subject; Self-motivated and able to work with own initiative; Multi-Skilled technician/maintenance background and full UK driving licence.
