

## **Regional Operations Manager Home Counties / South East**

**£-Excellent**

I am working with a leading Green Waste Recycling company who have an exciting opportunity for a Regional Operations Manager. This is a key role within the Operations team. Working with the Operations Director, you will be processing input materials across multiple sites. You will be involved in all the day to day operations of these sites and working closely with the Site Operation Managers and Commercial team on inputs and outputs. Some of your responsibilities will include but not be limited to; Health and Safety and Environmental compliance across the sites and third party suppliers; Manage operations ensuring production levels are achieved in line with company expectations; Manage site movement for smooth processing and material acceptance; Stock levels; Ensure that plant and machinery is fit for purpose and compliant with all legalisations; Produce CAPEX plans in order that plant and machinery is replaced in a timely manner; Liaise with current customers, maintaining dialogue throughout contracts, ensure reporting and any social value requirements are maintained as per contractual terms; Source new feedstocks and contract tendering; Review reports to determine profitability and areas of improvement; Site visits and tours; Working as part of a team to achieve best outcomes; Working to a set of KPI's and keeping within budget; Seek out and assess new opportunities and innovation to further enhance the Business; Aid in the marketing function, ensuring alignment with other group companies; Maintain a positive outlook and attitude sharing the organisations passion and goals. In order to be considered for this role you will have the relevant experience within a similar position in the waste/recycling sector at senior level; Strong leadership and Operations management skills; Excellent IT and reporting; Good written and verbal communication skills in order to work with, provide advice to, train, and promote excellence operational efficiencies; The ability to organise and prioritise workload; A flexible approach to working hours; Knowledge of machinery operations; Knowledge of business process and it's functions (finance, HR, procurement, operations); Excellent time management. Qualifications; COTC and IOSH.
